

Our Economic & Community Development Work for Your Benefit

The Lenexa Chamber works through our development arm, the Lenexa Economic Development Council, and with the City of Lenexa to recruit new businesses and new capital investment and to retain existing industry in our community.

Over the last decade, the Chamber has successfully worked on projects that have created thousands of new jobs and resulted in hundreds of millions of dollars in capital investment in Lenexa. These projects include companies such as Lexmark Enterprise Software, Ceva Biomune, Community America Credit Union, Quest Diagnostics, Amazon, Cargill, PRA International, and Kiewit Power, just to name a few.

These are projects that could have located anywhere, and they chose Lenexa. That didn't just happen. It was the result of the efforts of a dedicated development team who have worked for years to make Lenexa a world-class location option. When a company chooses to locate or expand in Lenexa the tax base is expanded, which helps keep your property taxes down and property values up.

We encourage all companies who have chosen Lenexa as their corporate home to support the Chamber in our efforts to create the best possible business climate for our companies and the best quality of life for their employees.

With our partners at the City of Lenexa, we have created a product that the region and the country have taken note of. Lenexa is well positioned to compete for new projects and will continue to make sure our existing companies stay and expand right here. We need the support of all of our corporate citizens as we work to continue the Lenexa tradition of the highest quality growth and development.

We invite Chamber members to become active participants in our Lenexa Economic Development Council (LEDC). The LEDC convenes monthly. It is here that members hear about the new and exciting projects on which the LEDC is working to bring new companies to their new home. This is also a time to meet others involved in economic development around the Kansas City area.

Companies interested in LEDC membership should contact the Chamber at 913-888-1414.
