

Volunteer support helps save lives!

Community Blood Center volunteers share smiles (and cookies) with the donors who fill the critical need for blood, help drive the donations to regional hospitals, and assist with office projects, donor reminder calls and special events.

Thanks to volunteer support, our team can help save more lives.

So call today to become a CBC volunteer who helps us put our attention on getting the blood, plasma and platelets to the patients in need.

Volunteers help as:

- Drivers
- Ambassadors
- Outreach Reps
- Office Assistants
- Mascots
- Spanish/ASL Interpreters
